Advice to Methers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

A NEW JERSEY RIOT. Several Hundred Engage in the Fight

The Trouble Not Ended. New Brunswick (N. J.), May 5th.—Last night and this morning a tatal riot occurred at Sayer-ville brick-yards, five miles below this city. Agent E. P. Henderson, with 100 men, started learning to the brick to but it a cruy from the men. Agent E. P. Henderson, with 100 men, started last night to put in a spur from the main line of the Raritan River Railroad across the land of ex-freeholder Edward Furman, down through the brickyard to William F. Fisher's yard. Furman was opposed to their crossing his land, and called out his men. The railroad men were reinforced by brick yard men, until 500 were engaged in the fight by midnight. Fur man's men attacked the railroaders and burned their ties, materials and car. Pistols, clubs and stones were freely used. George Kissinger, one of Furman's laborers, was killed outright. He was knocked down with a club and a sharppointed crowbar jammed through his head. John Kennedy, a railroad man, was so badly injured that he died within an hour.

At 4 o'clock this morning the Sheriff of Middlesex county called out a posse of fifty men. When they reached the place all was quiet, and the railroad men had stopped work to recruit their force.

The Raritan River Railroad is a new enter-

their force.

The Raritan River Railroad is a new enterprise running from South Amboy to Bonne Brook. Furman complains that the company is crossing his land without his consent, which the company claims he has given. Up to 6 o'clock this evening all was quiet, but the railroad men who are encamped in the woods near the disputed spot are being heavily re-enforced from along the line and trouble is expected tonight as both parties are determined.

GETTING ANXIOUS. Look Out for Squalls on Wednesday-

Somsone Will Get Left.

Someone Will Get Left.

Washington, May 5th.—Among politicians to-night interest centers entirely in the appointments that the President will make during the coming week. Yesterday he told a delegate from Kentucky that the appointments of Collectors of Internal Revenue would be made on Wednesday, which is known as Treasury Day at the White House.

Among other appointments to be settled on that day will be that of Chief of the Bureau of Engraving and Printing and First Comptroller of the Treasury. Upon the result of the first place will depend very much the Public Printer, should Meredith be appointed as Chief of the Bureau, then it is generally believed that Palmer will not be appointed Public Printer, but if Meredith fails then Palmer stands an excellent chance to be successful.

Illinois politicians pooh-pooh this statement of the case and affect to believe that both Meredith and Palmer will be successful. This, however, is not likely as both offices pay the same salary, \$4,500 per year, and both are free from civil service as to the minor appointments. Consequently the heads will wield a tremendous power in patronage appointments, and it is not believed the President will look to a State that always goes Republican and does not need offices to win.

NATIONAL PATRIOTIC CLUB. An Organization Intended to Inspire Love of Country.

New York, May 5th.—A new national pa-lictic club organized last night. It is to be nown as the "George Washington Club," and s constitution provides: "That every man, roman and child who subscribes to the docrine of patriotism may become a member."
Letters of encouragement were received from xx-President Cleveland, Senator Evarts, Senator Blair, John G. Whittier, George William Curtis

and others.

The offi ers elected were: President, Arthur D. Cochrane; Vice Presidents, Senator Blair, Admiral Porter, General Clinton B. Fisk, Hon. Amos J. Cummings, Albert Griffin of Kansas, George R. Scott of Brooklyn, Samuel Gompers, President of the American Federation of Labor; Secretary, Frank Allaber; Tressurer, Charles R. Binger. All of the officers chosen have accented their positions.

COAST DEFENSE VESSEL.

Formidable Warship Afloat. INGTON, May 5th.—Secretary Tracy has I the contract for building the powerful fense iron lad to the Union Iron Works at the price of \$1.628,000.

The new vessel will be a departure in design from any vessel in the navy, and will be the most formidable vessel for her displacement of any in the world—able to cope with anything afloat. She approximates the monitor type, and will be of 5,000 tons displacement in cruising trum. She is to have a length of 256 feet, with a breadth of 49 feet. She will be protected by a belt of steel armor sixteen inches thick over the engines, boilers and magazines and eight inches thick forward and att.

The specifications call for 5,400 horse-power. The Union Iron Works guaranteed to develop this amount of horse-power, while Cramp & Sons, the lowest bidders, avoided the conditions. The srecification provided for two ordinary tubular boilers of 1,500 horse-power. The remainder of the 5,400 horse-power required is the baryaliod to the statement of t

mainder of the 5,400 horse-power required is be supplied by coil boilers. These have been ied with great success on yachts and in a hodified form by the French Government. But heir use in naval vessels will be largely experi-hental. If they come up to expectations they fill result in a large saying of space and will result in a large saving of space and weight. The Union Iron Works agreed to ac-

Her most remarkable feature will be the tremendous power of her armament. On the forward barbette, mounted on a turntable and manipulated by hydraulic power, she will carry a 16-inch rifle weighing 110 tons and 49 feet long, one of the largest guns affoat. In the rear barbette there will be a 12-inch rifle, weighing 46½ tons. A 15-inch dynamite gun 50 feet long will project from the bow, and in other places the vessel will carry six 33-pounders, three 9-pounders, two 6-pounders and four 3-pounders, all revolving cannon and rapid fire guns. Machine guns and electric search lights on a hollow steel military mast will complete the ship.

When she goes into action, by taking on water ballast she will sink until her deck is but 18 inches above the water level, thus diminishing the size of the target exposed to an enemy. The sides covering the machinery are to be covered with 16 inches of armor, besides the protection afforded by the cost bunkers. The barbettes containing guns are to be of 16-inch steel, and the deck will be of steel two inches thick. She will have a draft of 14½ feet and a speed of 16 knots. At this speed she can steam 642 miles, but at ordinary cruising speed, about nine knots, she would travel 2,722 miles without renewing her coal supply.

CALIFORNIA PRUNES.

Their Superiority Over the Imported Ar-New York, May 5th.—Interest in California prunes has recently become keen, owing to the arrival of several parceis prepared and packed in fancy French styles. The result of the experiment is most satisfactory, the prunes arriving in a remarkably fine state of preservation. No fermentation, mold or other ill effects of the heat were noticeable. Samples of the fruit which arrived first are still in as good a state of preservation as when opened, and there is no sign of a tendency to become candied, which is detrimental to the French article at this season of the year.

A Tribune reporter saw several members of the trade and learned that the general opinion after these tests or experiments, was that California prunes rank as first quality, but the quantity would come in due season. California has given the fruit trade of New York several surprises during the last few years, but this one is ticle Established in New York.

prises during the last few years, but this one is the greates, especially as the California product is now selling at three-quarters of a cent a pound higher than the French article.

He was sentenced to suspension for five years on half of his present pay, and to be publicly reprimanded by the Secretary of the Navy. In tulfilling this office the Secretary calls attention to the fact that this officer has been court-martialed, and says that "the department can have no further confidence in him," and that he "is a disgrace to the service" This indorsement was one of the most severe and galling ever made.

in two places. The train bore an usual number of passengers, but none were injured.

Both of the engines and the mail and baggage cars left the treek and were badly demolished. A number of freight cars were entirely destroyed. Three cars were loaded with Washington Territory horses, which were killed outright or shot, to relieve them of their sufferings. Engineer Bass was about thirty years old and was engaged to be married in about ten days to Miss Miller, who was greatly shocked at the news of her lover's death, and is suffering from a hemorrhage as the result and doubts of her recovery are entertained. A misunderstanding of train orders was the cause of the collision.

A MYSTERIOUS CASE.

A Prominent Physician Drops Out of Sight—A Supposed Murder.

CHICAGO, May 5th.—Dr. P. H. Cromm, a local physician somewhat widely known among the members of the Ancient Order of Hibernians and other Irish societies, disappeared last night in a mysterious manner. His friends express the belief that he has been foully dealt with. A stranger took the doctor off last night, it is related, ostensibly to attend an injured man in Lake View. Since then Cronin has not been seen, and inquiry fails to bring to light any injured man such as described.

To-day a trunk was found on the prairie near Lake View containing a mass of bloody cotton, similar to that Dr. Cronin carried in his surgeon's case, and some hair said to resemble in color the doctor's locks. A two-column interview with Dr. Cronin, in printed form, prepared by himself, was given to the newspapers to-night by ris friends. It relates to various circumstances purporting to show that a conspiracy of some sort existed to injure Cronin in reputation or person. Sight-A Supposed Murder.

the Appointment. Washington, May 5th—Between now and Saturday next there will be any amount of wire-pulling by applicants for the position of Adjutant-General of the Army, made vacant by the retirement of General Drum. While the general opinion expressed by army officers points to the selection of Colonel Morton, the friends of Colonel S. McKeever and Whipple have not abated their efforts. Colonel Vincent, who has been mentioned for the place, is not in a true sense an applicant. He is a warm perwho has been mentioned for the place, is not in a true sense an applicant. An Extra Session Probable.

WASHINGTON, May 5th.—Senator Ingalls says that, it his opinion, there will be an extra ses-sion of Congress called next fall, probably about the middle of October. This course has been deemed judicious with a view to organizing the House of Representatives and getting the legis lation in shape before the holiday recess. Congressmen Reed, Cannon, McKinley and Hender son of lowa also indorse this belief, while among he Senstors and members generally the opin ion all drifts that way.

YOLO'S RECORD.

Since its Formation.

Woodland, May 5th.—The recent homicide in this county has, as usual, awakened the usual cry of "Hang him, hang him!" yet it is a remarkable fact that only one man has been legally executed in Yolo county since its formation.

Early in the 60's a man named William Williams killed at Sacramento a man named Blanchard He was tried in Sacramento county, found suilty and sentenced to be hanged. His attorney carried the matter to the Supreme Court, the decree of death was set aside and a new trial ordered. Felieving that a fair and impartial trial could not be secured in Sacramento, a change of venue to Yolo county was secured. The trial took place in the building on First street now occupied as a saloon and bakery by Otto Schluer. Williams was again found guilty and on May 22, 1864, was hanged by Sheriff Charles Gray at the race track near Washington, this county.

Daring the past twenty-five years a number of minders have been committed within the confines of Yolo county, but not one murderer has paid the price of his crime.

THE VERSAILLES CENTENNIAL.

A Crank by the Name of Perrin Shoots at President Carnot.

PARIS, May 5th.—A man who gave the name of Perrin, and who says he is a marine store-keeper, fired a blank cartridge at President Carnot to-day when the latter was leaving the Elysee Palace to attend the centenary celebration of Versailles. Perrin was promptly arrested and taken to the police station, where he explained that he had no desire to kill the President, but that he merely wished to expose the fact that he (Perrin) was the victim of injustice. The crowd which had gathered in the neighborhood of Elysee to witness the departure of the President became greatly excited, and threatened to lynch the prisoner. The police how ver gathered in force and drove back the indignant citizens.

Upon reaching Versailles the President inaugurated the memorial tablet affixed to the building in which the States-General met one hundred years ago to-day. The President and his escort then proceeded to the Hall of Mirrors, in which place there was a grand assemblage of Deputies and Senators. Le Royer delivered an address of welcome to the President, in the course of which he said: "No longer the humble deputies of the third estate, to whom even the privilege of standing upright was denied, but the esteemed representatives of the nation, who, bowing before their freely-elected chief, pay tribute to the great dead to whom we owe our liberty. Establishing Factories to Give Employment to the Evicted.

Boston, May 5th.—A number of the prominent citizens of Boston who for a long time have been considering the question of how best to go to work to practically and lastingly benefit the poor evicted tenants in Ireland, have united upon a plan for carrying out their purpose. Full details of it cannot be given out, but they will probably be developed in the course of a few weeks. They feel that the hope of accomplishing anything lies in the possibility of getting the farmless people interested in some kind of industrial pursuit.

The idea is to establish in one of the poorest districts a factory in which the evicted tenants could find employment. It is proposed, therefore, to incorporate a stock company, selling shales in all parts of the United States where there are natives of Ireland or friends of Ireland's cause to buy them. ment to the Evicted. land's cause to buy them.

The men who are promoting the scheme recognize the fact that the one way for them to attain success in it, is to show personal interest

by going there and getting the factory fairly started. There would be no filibusters in the party and it would be guaranteed that there

will be submitted to Farnell, Davitt and O'Brien for their approval.

It is proposed to manufacture boots, shoes, clothing and underwear. There is already an underwear factory at Mullingar, which is run upon that principle. It is in a very flourishing condition. Some of the stock is held by Boston friends of the Irish cause, who, in subscribing, felt that they were doing more for their kindred than if they had merely given money to the league fund. Nor only California, but the entire Pacific Coast, is to be congratulated upon the decision of the Secretary of the Navy, awarding to a California firm the contract for the building of the cruiser for this coast. The vessel is to be of a new type, the most formidable yet built for the United States, and is intended to be as nearly invincible as naval science can attain, with its present knowledge of construction. Some idea of the character of the cruiser, and which is to be novel in all respects, can be gained from the statement that, with her coal-carrying capacity, she will be able to steam, at the normal rate of speed, 2,722 marine miles, without replenishing her coal bunkers, or 632 miles at extraordinary speed. Her armament, also, will be of the very best procurable, and will include a powerful 50-foot dynamite gun, and a 16-inch rifle of 110 tons and 49 feet in length, besides a number of The only way we can account for the omis other rapid-firing and powerful guns, machine guns, light batteries, etc. The building of this cruiser will call for the expenditure of \$1,628,000, and will give employment to a large force of skilled workmen for a year and a half.

The breeders of fine stock in California have demonstrated, beyond all question, the special capacity of this State to grow the very best class of animals, and the prediction is being every day strengthened, in which we have before indulged, that it will be but a comparatively short time before the stock farms of California will prove a greater source of wealth and pride for this State than have the blue grass regions of Kentucky for that favored more than one for every 500 of the populacommonwealth.

This evident love of the Samoans for this country, angered Dr. Knappe, and to him appears as nothing less than insulting to Germany. Really, the doctor should be retired from Berlin before he makes his native land a laughing stock.

THE Sub-Committee of the Samoan Conference at Berlin has refused to consider the claim of Brandels, the German Samoan commercial agent, for alleged losses by German planters in Samoa, and the accompanying claims for indemnity therefor. If before the full Commission these claims are insisted upon, it will be shown that the losses referred to were the direct result of the action of the German Consulate in supporting the claims of Tamasese, a rebel, who was urged on by German influence to inaugurate the rebellion in the course of which, by usual acts of war, the damages resulted.

The power to issue licenses is in the hands of the Police Commissioners, who are the appointees of the Governor. The entire country will watch the operation of the new law with a great deal of interest, the question having passed out of the realm of senti-ment and reached that of practical experi-ment. Whatever we may think of the matter, here is a State trying an experiment in regulation to which the country will look with interest, even though it may be divided in opinion as to the wisdom and the ustice of the law.

YOUNG MEN.

CLEANLINESS IN BOTH THOUGHT AND ACTION

A Necessary Attribute of Godliness -Yesterday's Sermons in the Churches.

At the Fourteenth-street Presbyterian Church, Rev. George R. Bird yesterday spoke on the subject: "Wherewithal shall a young man cleanse his way? By taking heed thereto according to thy word."-

Psalm cxix., 9. First-The common way of young men is said here to be unclean. If any one knows the way of a young man, that one is God. Now, God never misjudges or misrepresents a man. Faithful to life are all His photographs. When He says the young man's ways are commonly unclean. He does but say that which life and history reveal. Much of our country's future greatness depends upon the character of our young men, since much of its history must run through their hands and hearts. Are those hands and hearts to be clean or unclean? They will be unclean if they partake in the common ungodliness through neglect of the first commandant. One reason why the Bible is distasteful to so many young men, is because it corrects their wrong course by commanding them to worship God. They do not want correction, and therefore neglect its advice. As soon as boys begin to bud into men they feel too big for church or the Bible ship God. They do not want correction, and therefore neglect its advice. As soon as boys begin to bud into men they feel too big for church or the Bible class—places where the above good advice is given—and they go off and out like the prodigal son to have a good time in like the prodigal son to have a good time in tracks attract a daily attendance of from riotous living. The young man says, "I want to see life; don't want to be narrow; want to show my independence, and sow my wild oats." The young man who breaks the first commandment will soon break the rest. Then the life is unclean through profanity, dishonor of parents, covetousness and the catalogue of unclean things spoken against in the second table of the Decalogue. Now, an unclean way that is not flushed is soon filthy. Only one thing can flush the soul clean, and as young men commonly despise that one thing, their minds are soon filthy in ran at San Francisco in 1:40. A recordthought and their lives in acts. Listen to the common conversation of a knot of young men on the streets. It is usually silly, and often sensual, and so is sadly in men in town to witness the races, and many more will arrive to-day. Second-The clean way for young men is

not popular. It requires a young man to go against the current of custom. He must shake himself awake in order to think about higher and better things. If he Judge Van Fleet's Court on Saturday. Totals continues to wallow with the world in County Clerk Hamilton testified to having unclean ways he cannot be otherwise than filthy in God's sight. He must not be afraid to face the laugh of the scorners, for the devil will tickle such to laugh his good intentions down. He must separate himself from unclean places and persons, as did the early Christian converts from the corrupt society of the old Roman Empire. Desert loneliness is a help to godliness when the company of the world is corrupt. He must not attempt to straddle the fence by holding on to both God and the devil. He must take the guide to holiness, which is the word of God, and give good heed to its directions.

The path of the just is very dim without the light of this guide. The snares of the He cannot see his way to heaven by the light of a cigar. His com-panion must be the Word of God, to which he must give constant heed, as to a light in a dark place. The Bible is a wonderful book to give both tone and bone to a young man's character. It has made a weak man into a John Knox, and strong of soul enough to shake such a country as Scotland in the days of Mary Stuart. The Bible will keep a young man from becoming food for Satan's candles. Satan's canshine in the saloons, theaters, dives and dens of vice, so plentiful in all cities. Into these silly and conceited young men rush like bugs into the heat of the electric light, and are destroyed from lack of knowledge. This lack comes of neglect of the Bible, the church, and the Lord Jesus Christ, through whom alone, God says, they can be cleansed and kept clean.

PAUL'S SUBLIME CHARACTER. At the Central M. E. Church Rev. Thos. Filben preached yesterday morning on Paul's words: "None of these things move me." He said: "Paul is, perhaps, the next greatest figure of the Scripture after Jesus. He approaches nearest to Jesus in the grandeur of his character. The text presents a great view of him. Paul is on his last round and is faced towards Jerusalem, after that intending to proceed to Rome. He is taking final leave of the elders of the Church of Ephesus, recalling the difficulties that have beset his way, and facing the probability of imprisonment at Jerusalem, he uses the words. Measured by his career they are no stretch of rhetoric, but show the prevailing temper of the man-superior to his surroundings, though surroundings

cissitudes of life as was Paul. Life is ols. full of difficulties and resistances, not outward as Paul's always, but all have troubles. They come in the course of life, in the way we are set to run. Trials calculated to unsettle us; losses, sickness, deaths, betrayals. It is great to be above these, unaffected by these. They come in every life. It is beyond our power to contest their coming. Our lives and our ways are beyond our control. God marks out the line. In the pursuit of our way we encounter these. Not that they all come from God, but all are permitted of God. They are determination of character in the way we meet them. Adversity and affliction are good tests of the stuff that is in a man. God often needs to disclose us to ourselves. The gold is a true symbol of a right bearing on which the fire may play for one thousand years and not tarnish it or diminish its weight. Paul is a good model, crying, in and after that life so checkered, so full of adverse experiences, begun in persecution, continued in imprisonment and scourging and ending in martyrdom, 'None of these things move me.' "Pant gives us the secret of his steadfastness, his superiority over these external circumstances of his life: 'Neither count I my life dear unto myself, so that I may finish my course with joy.' It is what is at the end of the journey that controls him, and not what is along the way, a proper regard for eternity and the things of it. There is a day that every man wants should be a quiet day. It is the greatest day of life, because of what it determines. There is only one way to be quiet in it. It is to have the record clear, backward and forward, from it. Paul wanted that day quiet. It was a quiet day

While being driven along N street, between Twelfth and Thirteenth, yesterday morning, one of Dr. Pendery's team of grays became unruly and threw himself upon the buggy-tongue, breaking it short off near the doubletree. The doctor managed to alight and secure the team before any serious damage resulted.

Hospital Supplies. Panl gives us the secret of his steadfastwanted that day quiet. It was a quiet day for him—even though it was a day of martyrdom. There beyond it is rest from bondage and sorrows and trials, and beyond it is abounding reward for all suffering and toil, and reunion with the greater company gone before. Death is gain. It was this thought that nerved Pani to be steadfast. Proper thoughtful-Paul to be steadfast. Proper thoughtful ness on these things would make all stead fast, whatever the passsing experience of

The door was then opened and the building was lying in a critical condition. ransacked in a systematic manner. The country store, for a variety of goods was sought more than anything else. As far as Mr. Sawtelle could ascertain, the following are among the articles missing: Gold pens and penholders, purses, watch-chains and and penholders, purses, watch-chains and charms, scarf-pins, silver watches, fifteen or twenty pairs of opera-glasses, rings of different descriptions, harmonicas, pocket diaries, cigar cases, plush cases, pocket brives. razors, a pair of Lemaire pearl opposes, and the second secon diaries, cigar cases, plush cases, pocket knives, razors, a pair of Lemaire pearl op-era-glasses, fifteen silver dollars, several pairs of scissors, drawing instruments, silver card receivers, a silver mug, \$150 in

the work was done between these hours. He was not in the habit of leaving so much money in the drawer, and would not have done so if he had had time to balance is books the night before. THE SPRING MEETING. The Capital Turf Club's Opening Post

poned One Day. The heavy rain of Saturday night, when the heavens opened their flood-gates and deluged the earth with water, has caused a postponement for one day in the opening of the Capital Turf Club's spring meeting in this city. The officers of the club visited Agricultural Park yesterday, and, while they found it in tolerably fair condition, concluded that it would be better for all concerned to defer the opening of the meeting for one day. Although not heavy, the track was packed rather hard by the beating rain, and a little loosening up, with a few hours of sunshine, will greatly improve it

prove it. Hence, instead of the races commencing to day, they will commence to-morrow. This arrangement will not inconvenience anybody, as the postponement will not throw the races over until next week. The programme calls for five days' contests, and instead of concluding on Friday they will close on Saturday. Turfmen are taking a great deal of interest in the coming meet-15,000 to 25,000 persons.

This week's meeting may be regarded virtually as the commencement of a new era in spring meetings for this city, and— aside from the sport afforded—it has a busi-ness and financial significance of great importance to this community.

It will be seen by a telegram from San Francisco that Ashe's famous mare Geraldine and Tupper's Al Farrow, are matched to run a mile during the week for \$1,000 a side. At the San Jose meeting Al Farrow

The matter of the contest over the will of the late A. J. Stevens was resumed in seen in his office a document relating to the legal adoption of Mrs., Hubbard's infant son by her parents, but after a brief search had been unable to find it.

An argument ensued between counsel for the respective parties to the contest over the sufficiency of the certified copy of such order of the Court, offered in evidence by Mrs. Stevens, and the latter's counsel was allowed until Friday in which to present authorities on the point at issue.

Mrs. Stevens' counsel offered to prove by

his son and daughter therein, but the Court declined to receive such testimony.

The matter of the petition of Mrs. Hubbard to be declared an heir-at-law was then submitted and taken under advisement.

Yesterday's Fire. The alarm of fire at 6:30 A. M. vesterday was caused by a fire in the small cottage of Dan Cummings, on the south side of E street, between Twelfth and Thirteenth, which was a total loss. In trying to save some of his furniture, Mr. Cummings was severely burned. On the east side the resi-dence of Mrs. Hirst suffered some damage west, owned by George Higs and occupied by F. M. Jackson. All the parties were insured, and it is thought that the damage will not exceed \$1,000.

Again there was trouble with the fire

alarm, and the department lost considerable time in locating the fire. If something be not done to place the fire alarm system on an efficient basis, there may be cause some day to rue the "inoccuous desuctude" that has been allowed to afflict it.

The game, all the way away, where he lay for some time. through, was very interesting, and the pitchers on both sides did excellent work. Coughlan pitched the game for Oakland, and allowed but two base hits during the whole game, one of them being a triple, however. Harper did the twirling for the nome team, and he also did some clever playing. Fairihurst caught another of his brilliant games and captured some difficult high fouls. Sheridan umpired the game, and the score was as follows:

Veach, the first-baseman of the Sacramentos, has been suspended indefinitely without pay. It is said that this action was taken on account of his recklessness in drinking. He may be reinstated, however, in time to play in next Saturday's game here. He is too good a man to lose altogether, if he will only submit to that rigid discipline that should govern all ballplayers. Colonel Robinson says he would like to

He considers Sacramento in luck that it did rain. McSorley is said to have read the Riot Act to umpire Young in San Francisco on Saturday upon his refusal to call the game. They are not on the best of terms, anyway.

Sacramento still fills the position of rear guard in the League procession, but there may be a right-about-face before the season

Saturday morning the Young Americans defeated the Young Tribunes by a score of The Sacramento and San Francisco clubs started in to play ball at the Haight-street Park in San Francisco on Saturday in a drizzling rain. The grounds were in very poor condition, and the ball had no more poor condition, and the ball had no more than the following members: James Hardy, Captain; Will Hardy, George Hoyt, Dan Corcoran, Peter Nusbaum, John Carroll, Robert Martin, Henry Miller and Jno.

OFF FOR THE EAST. Departure of the Winters Stable for the

them for another game.

Eastern Circuit. Theodore Winters' stable of thoroughbreds, seven in number, including the colt track, and Mr. Winters refused an offer of \$60,000 for the lot while they were at the Blood Horse races in San Francisco a week the rain, and Umpire Young was made ago. The stable goes under the superinaware of the fact in language perhaps more forcible than polite, but he refused to call Sheriff A. H. Estill of this county, who will watch over the horses and their handlers throughout the Eastern circuit. A large delegation of the latter's friends were at the depot to "see him off," and he bears with him the best of wishes of a

and that of the equine beauties consigned to his care. Mr. Winters has not figured on the turf though they were eight runs in the lead at the end of the eighth inning. Following is the score:

east of the Rocky mountains for many years, and his return to the leading tracks of the country is hailed with delight by turfmen all over the Union. While con-fining bimself of late years to the breeding of thoroughbreds, his stock, in the hands of others, has shown to the front on many a hard-fought field and in the best of company, and the racing spirit of the old veteran has been revived. He now comes to the front again with a stable of grand colts, and there is little doubt that he will, while filling his own pockets with Eastern money, add new fame to that which Cali-

large circle of acquaintances for his success

fornia has won in the past.

The string goes first to St. Louis, and after the meeting there will move eastward and participate in many of the largest stakes to be run for on the other side of the Rancho del Rio's and Rancho del Paso's (Haggin's) colors may reasonably be expected to show to the front in

A HARD SET. Shooting Scrape Between Toughs in

Foothill Dive. A telegram from Auburn on Saturday announced that a tragedy had been committed early on that morning near Penryn, the result of a dance and subsequent brawl at a dive run by one Wm. Howland, otherwise known as "Circus Bill." The den is the same that became so notorious under the management of one C. A. Bassett some time ago, who attempted to kill Della Mc-Rae, and was sentenced to State Prison

It seems that on Friday night a tough gang had collected at this den for a dance, among them an ex-convict from Nevada, Brown, and Bill Clark, Rose Leslie and a female companion called Slivers, from this city. When the beer and bug-juice had short-stop, lost the game for his club. Out begun to get in its work on the dancers, of the seven errors made by his side five. Brown and Clark got into a row, and the former was shot in three places. He ran are attributed to him, and every one of from the house and fell a short distance Clark was arrested by Constable Grant, of Penryn, and taken to Auburn. He declined to talk about the affair, but it is learned that the fight occurred over a woman named Agnes Miller, recently one of the L-street denizens of this city, but who, in company with Clark, left for Penryn a few days ago, the latter having been driven out by the police.

At last accounts Brown was reported dy-

AMUSEMENTS.

The engagement of J. M. Ward, the capable and experienced Irish comedian, and of Carrie Clarke Ward, a favorite comedienne, will begin at the Opera House to-night. The Irish drama, "The Red Fox," will be produced. Timothy Mc-Carthy, the Irish piper, is among those in the "support." The prices are 50 to 25 cents, with no extra charge for reserves.

The box-sheet for the Mikado Company will open at Houghton's bookstore at 9 o'clock this morning. The committee in charge say that there will be a "clean box sheet," and that first come first served will be the rule. Twenty-five cents will be charged for reserving seats. The price of tickets being low, the company local, the object a benefit, it is anticipated that there will be large audiences.

Another Batch of Notaries. The following new Notaries Public have been appointed by the Governor: E. C. Smith, Pacific Grove; George B. Cole and James E. Mack, San Bernardino; L. D. Graves, Ontario; S. R. Langworth, Riverside; H. N. Bryant, National City; Lafay-ette Gill. Leon; E. A. Lacy, Del Mar; O. H. Savage, Fred G. Whitehead, W. M. Allison, B. L. Muir, San Diego; George B. LIVERMORE, May 5th. — A heavy southwest wind blew during the night, ending in a rain, the fall to 7 a. M. being .5 of an inch. During the day half an inch more fell. The weather is still unsettled. A large amount of hay was cut and is more or less damaged, unless the weather soon clears up. The greater part of the wheat crop is benefited greatly. Some little damage may be caused to barley, which is growing very rank, and may be lodged by the storm. The weather is cold, and it no frost follows the vines and truit will be benefited.

SAN JOSE, May 5th.—A heary rain-storm prevalled here early yesterday, and this morning was followed by another downpour, mixed with hall. Considerable damage was done, to crops, particularly to the ripening grain and cut hay.

GILROY, May 5th.—One of the heaviest rainstorms of the season set in last night and, with short intervals, has continued all day. One and a half inches has fallen in less than twenty-four hours, saturating still more the well-soaked soil. Considerable hay has been cut and stacked, and this will be spoiled if good weather does not immediately ensue to enable redrying it. The wheat and barley will be benefited. Sacramento City Bonds.

THE COMMISSIONERS OF THE FUNDED debt sinking fund of the city of Sacramento will have on hand by the 13th day of May about Fifty Thousand Dollars for the purchase of Sacramento city bonds, which they will pay to the lowest and best bidders for the respective classes of bonds due in 1888, 1893, 1898 and 1903. They invite sealed proposals for the sale of these bonds and will consider all bids placed with the Commissioners on or before 10 o'clock A. M. on May 13, 1899. The different series of bonds must be offered separately, as they are of different values, according to the period at which they are payable. All bids should be directed to the are payable. All bids should be directed to the "Commissioners of the funded debt of Sacramento," and marked on the outside, "Bids for bonds." The Commissioners reserve the right to reject any or all bids.

In spite of this advice, quick work can be done

SAPOLIO. It is a solid cake of Scouring Soap. Try it.

We are often in need of something to aid us in ouse-cleaning when in a hurry, something that will assist us doubly and do the work well. Such an aid can be found in Sapolio, with which quick work without loss or waste can be secured-the only exception to the saying "quick and well don't agree." Try a cake. No. 29.
